PRESIDENT'S MESSAGE

Our College continues to be very busy after the Summer Holidays. This year, a Membership Examination is being conducted for candidates in Anatomical Pathology as well as Fellowship Assessments for candidates in Anatomical Pathology and Forensic Pathology. We have now held examinations and assessments with external examiners since 1993 – an essential element in maintaining the standard of Pathology in Hong Kong. After 30th September this year, exit assessment by a constituent college becomes mandatory for fellowship of the Hong Kong Academy of Medicine. We offer our best wishes to all the candidates!

The seminar on Current Medico-Legal Topics in Pathology held in June was well attended and resulted in some lively discussions. I hope this spirit will continue. Note that a seminar on Bone Pathology organised by the College will be held October 10th.

Our College and the Hong Kong Division of the International Academy of Pathology have agreed to join with Royal College of Pathologists of Australasia to co-organise a joint scientific meeting in Hong Kong in **September 2001**. We hope all members will support and participate in this extraordinary event.

The First International Congress of the Hong Kong Academy of Medicine will be held on 26-29th November this year in the new permanent headquarters of the Academy. This will be a good occasion to share our knowledge and experience with other persons in the medical profession as well as meeting VIPs and experts both from overseas and locally. All members are encouraged to lend their support.

Immediately after the Congress, our College will host a meeting of the International Liaison Committee of Presidents. This is an important meeting for sharing our experience with overseas colleges and other organisations in pathology as well as fostering international relationships.

Finally I would like to thank you for your continuing support to our College and I am looking forward to meeting you during our College activities. This year the AGM (& other events) is on Saturday 12th December. Remember to enter it in your diary.

THE INTERNATIONAL LIAISON COMMITTEE OF PRESIDENTS

The ILCP meeting last year was held from November 8-9, in Dublin, Republic of Ireland and was hosted by the Faculty of Pathology of the Royal College of Physicians of Ireland. For the past few years the President (or Vice-President) of our College has joined with the Presidents of the Royal College of Pathologists, Association of Clinical Pathologists, the Royal College of Pathologists of Australasia, The College of American Pathologists, The American Society of Clinical Pathologists, the World Association of Societies of Pathology, the Canadian Association of Pathologists, annually to discuss matters of mutual concern and interest to pathologists.

The attendees at the 1997 meeting were welcomed by the Dean of the Faculty of Pathology and the President of the Royal College at a reception in the library in the headquarters building at #6 Kildare Street, Dublin. All formal sessions of the ILCP were conducted in the headquarters.

The report of that meeting and discussions was presented to the Council by our Vice-President, Dr Collins, after it was finalised by the group. The meeting covered a wide range of topics including:

- (a) Changes in Provision of Pathology Services in the UK.
- (b) Changes in Postgraduate Training in Pathology in Great Britain and Ireland - International Implications.
- (c) The College of American Pathologists SNOMED Project.
- (d) Informatics--Improving Computer Literacy & Use of Computer in Information Sharing and Education.
- (e) Credit for Continuing Medical Education Courses Presented by Foreign Societies.
- (f) Cytopathology-Collaboration of International Pathology Societies Relative to Standardized Terminology, Technology Evaluation, Continuing Education, Multinational Clinical Trials.
- (g) Pathology Society Input in Selection of Pathology Trainees.
- (h) Use of Non-Pathologist Assistants in Anatomic Pathology. (For those interested, the complete report of the detailed discussions are kept by the Registrar.)

A number of topics for discussion at this year's meeting in Hong Kong have already been submitted (see below). If you have any matters which you would like considered for discussion, please contact the President, Dr WP Mak.

Topics submitted for consideration:

1. Different and changing roles of technologists, scientists and physicians within the disciplines of pathology.
2. Clinical governance in the laboratory disciplines.
3. Acceptable error rates in histo- and cytopathology.
4. SNOMED as an international "language" for pathology and medicine.
5. Current challenges to Academic Pathology Departments in the US.
6. Political and economic status of pathologists in the US.
7. Changes in practice characteristics of US pathologists.
8. Relation of Academy of Medicine, College of Pathologists and other organizations in pathology.
9. Changes in organization of laboratory based medicine and automation in pathology.
10. Continuing Medical Education.
11. Role of pathology organizations in dissemination of information to the public.

It is with regret that the College learned of the loss of Dr. Frederick ONG, O.B.E., Honorary Fellow of the College, who passed away peacefully on June 13th 1998.

Dr. ONG came from Singapore and he took up the study of medicine in the University of Hong Kong. After graduation, he decided on Forensic Pathology in the early '50s and had been instrumental in developing the Forensic Pathology Service of the then Medical & Health Department. He was the Consultant Forensic Pathologist-in-charge until his retirement in 1988. Dr. ONG was elected Honorary Fellow of The College for his dedication and contribution to the study of pathology in Hong Kong. He was well known for his sense of humour and he was never short of stories and jokes to share with friends and colleagues. He leaves his wife, a daughter and a son.
